If adopted, the proposed new water and wastewater impact fees will become effective on October 1, 2007 for lots platted on or after October 1, 2007.

The Impact Fee Advisory Committee comments have been completed and will be provided to the Mayor and Council, before the fifth business day prior to the public hearing on the proposed amendments, in accordance with statute

All Impact Fee Advisory Committee recommendations have been incorporated in the revised Impact Fee Land Use Assumptions and Capital Improvements Plan (CIP) reports. The recommended report changes include a minor calculation correction, which resulted in a change of the maximum allowable fee for water from \$3,310 to \$3,308. Due to the process of rounding the actual fee schedule amounts to the nearest \$100, this change did not result in a change to the proposed fees to be charged.

Under the law, the Council must approve or reject the proposed update on or before the expiration of thirty (30) days from the date of the public hearing on the amendments. The public hearing notification was published on July 30, 2007 in the Austin American-Statesman.
